

# STANT

White Hall, Arkansas

## About the Company:

STANT is a global corporation.

*“Stant is a recognized world leader in the design and manufacturing of Vapor management systems, Fuel delivery systems, Thermal management systems and Engineering services. As a leading manufacturer of closure caps, on-board vapor recovery components, and engine and transmission cooling components, Stant has cultivated its market-leading position by capitalizing on its wide-ranging experience and capability to provide its customers with innovative solutions for challenging applications. We focus on 3 markets and 3 product line segments: Automotive OEM, Industrial and After Market.*

*To satisfy our customer’s expectations for zero defects, 100% on-time delivery, system support, and low cost solutions, Stant has expanded its operational presence and developed a global customer support strategy. Today, Stant has manufacturing facilities and Sales & Technical Centers in multiple countries on three continents, which enables Stant to meet its customers’ needs with real global solutions.”*
